

When Precision Counts

Blendorama CW | Manual Dispenser

The Blendorama CW makes the difference

From the inventors of the Blendorama series, Fluid Management introduces the Blendorama CW Manual Dispenser.

The Blendorama CW is an economical workhorse designed to operate in a variety of applications and conditions. It is the perfect solution for tinting requirements where ease of use, simplicity of operation and precision matter most.

The Blendorama CW comes as a standard bench model that easily converts to a floor stand model with the addition of a self-assemble frame.

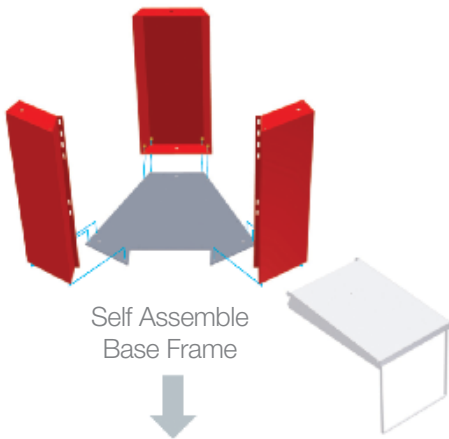

When your success relies on the precision of your equipment, you can count on the Blendorama CW.
